It was twenty minutes after the shout

we extend to him the sympathy which comes from every section and every state." Mr. Sweet's remarks were greeted with prolonged applause.

An addition from the world's end for the delegates to visit the fair grounds was read.

General Bragg of Wisconsin, moved that the convention adjourn to 11 o'clock, but suggested that it be 10 o'clock, changed the hour to 11 o'clock.

Before the motion could be put the delegates were in the aisle, and when at four minutes to 10 o'clock, the chair man declared the convention adjourned.

WEDNESDAY.

The Wigwam, Chicago, June 22.—

For the first time since the Democratic convention met in Chicago, the sun shone out Wednesday morning from a cloudless sky.

At 11:15 one-fourth of the delegates were in their seats, but there was a general sense of climbing.

Permanent Chairman that is to be William L. Wilson of West Virginia, intelligent and well liked with the people, Governor Leon Abbott of Missouri, was recognized and took the stand to nominate Grover Cleveland.

At 11:17 the New York delegation Governor Flower and Chairman Murphy, having been and closely followed by Illinois' Ober and Illinois' Abbott, the New York delegation, made their way to the platform, and from that conspicuous point, where the galleries could plainly see them, filed back to their seats on the left of the main aisle, accom panied by cheers.

A removal of chairs took place as the sat down. Ten minutes were given to upturn, the band assisting, while occasional peals reverberated above the din. The rains had stopped on the left, and the ladies sitting at the back, with the picture of Horace Boies, borne in front of them. There were cheers from all parts of the hall and the band very appropriately struck up "Yankee Doodle."

With the band ceasing, the temporary chairman brought his gavel down and announced that the first business of the convention would be the report of the committee on credentials. He asked that committee was ready to report.

Both any, and reply Mr. Wilson of Minnesota, got the floor and in a brief speech moved that the courtesy of the platform be extended to ex-Senator George F. Hoar and Lyman Trumbull. The chair declared the motion carried without asking if the committee on credentials were ready to report.

Mr. Shaw, of Maryland, from the extreme rear of the hall, replied that they were not.

The chair—At what time did the committee state that they will be ready?

Mr. Shaw—Not before 2 o'clock.

The committee was ready with a short and unanimous of disapprovement.

The chairman inquired what was the next pleasure of the convention, the committee not being ready to report.

ISSUED WEEKLY.

It's a good ticket.

Grover and tariff reform.

New York and Illinois make a fine combination.

The cholera epidemic is spreading rapidly throughout Russia.

The Kentucky State Teachers' Association is in session at Paducah.

Indiana will go Democratic this year without a candidate of that kind from that State.

Mr. Blaine has expressed a desire to return to Congress, and he may be elected to the House from his old district.

Campaign lies and Campaign liars ought to be nailed and shot. Deceit in political campaigns should be assiduously cultivated.

A. W. Billings, of Chicago, offers to be \$20,000 that Cleveland will be elected and that he will carry New York, Illinois and Wisconsin.

Keep your eye on Illinois. In 1890 Wilson the Democratic nominee for Treasurer, defeated his Republican appointment by 9817 votes.

The two delegates from the first congressional district of Kentucky to the National Democratic Convention voted for Cleveland, and for Gray.

Senator Stewart has offered a substitute for his free silver coinage bill. He now proposes to exclude foreign silver from the privilege of free coinage.

Wm J. Campbell has been selected as chairman of the Republican National Convention, in the place of J. S. Clarkson, who declined to serve any longer.

The fight for the Prohibition nomination for President in the Cincinnati Convention has narrowed down to Gen. Bidwell and W. J. Domares; a dark horse, however, is not an improbability.

It is said that the name of Mrs. Helen M. Gougar will be presented to the Prohibitionist Convention as a candidate for Vice-President. Rev. Sam Small is seeking for the same honor. Three cheers for the woman.

The Third Party leaders are urging Judge Gresham to accept their nomination for President. Gresham has heretofore been a Republican but he endorses the Third Party platform except the sub-treasury scheme. He pleads poverty as his excuse for declining the honors.

There is trouble between the workmen and the firm at the Carnegie iron works at the Homestead plant in Pennsylvania, and it is about wage. It is said that all the Union men will be discharged July 1, and non-Union men put to work. If this is done, several thousand men will be idle.

In a national convention Kentucky may not furnish presidential timber, but with her Carlisle, Waukesha, McKinzie and Owen, she is the poor of any state, and would not exchange her standing in the Union of States for that of those which do furnish the presidents.

The ex-President of the Farmers' Alliance in Kansas, Frank McGrath, has renounced his allegiance to the Alliance and return to the Republican party. He says that the Alliance is an "off-ice-seeking, bootlegging atax" to the Democratic party.

The Third Party convention in Tennessee elected delegates to the National convention at Omaha, but deferred the nomination of a candidate for Governor until after the Democrats make a nomination. It is currently rumored that it Governor or Buchanan is nominated, he will bolt and be the Third Party candidate for Governor.

Protection Doomed.

There was much shivering and juggling over slavery before the issue was squarely met, just as the Democrats have been shivering and juggling over protection; but from Chicago now comes the naked issue against the mastery of the monopoly, just as the naked issue against the mastery of slavery came thirty years ago, and history will repeat itself.

The cry of "free trade" was only lately as appalling to the party accused of favoring it as was the cry of "Black Republican" in 1860; but it is no longer a title to conjure with.

The Harrison administration now plumes itself on the reciprocity feature of the new tariff, and reciprocity is only free trade—or fair trade. Republican New England was one for free trade, and Webster sounded its sentiment in one of the ablest speeches of his life, and it now would prefer free trade to monopoly protection. The Republican West where only a few years ago the average popular vote was two to one Republican, is now not only against monopoly protection, but, under the cutting lash greed, it is now largely against all protection, and the tariff platform just adopted here will be an inspiration to revolution, and will make every State west of Ohio to the Rocky mountains doubtful in the coming battle.

I profoundly regret that the sincere friends of legitimate protection have been impotent in saving protection from the slimy fatal embrace of monopoly, just as conservative men of both sections earnestly deplored the remorseless grasp of slavery for imperial power; but grinding unreasoning monopoly has forced the issue, and whether it shall be this year or later, I regard the death of Protection as now inevitable. And like slavery, it will be the colossal suicide of this generation. —Col. A. K. McClure, in Philadelphia Times.

Congressman John R. Follows, one of the leaders of Tammany Hall in an interview says these will be no sulking among New York Democrats. Of Senator Hill he says, "He will do more hard work than almost any other man. He is a Democrat; a strong willing man who never sneaks, and will do all in his power for the success of the party.

Again, I will say that the Republican who thinks that the New York Democracy will be apathetic in this campaign will grievously admit his error. I do not mean to say that we have changed our opinions, for we still believe that with Cleveland the fight in New York is harder, but we are prepared to make a hard, determined fight, and will make one."

The head of the ticket the tail of the ticket and the platform is meeting with the hearty approval of Democrats everywhere. The campaign opens most auspiciously for the Democrats; the prospects for electing the ticket are flattering.

The legislature has been in session 181 days, and if the past is the best prophet of the future that body will be in session the remainder of the 365 days and then leave work undone.

The Jessamine Journal is not pleased with the new local option bill. It says:

"The Senate has amended the Local Option bill until it must suit exactly every man interested in the sale of liquor. As it stands it is plain truckling to the liquor traffic and an insult to the temperance people of the State. Surely no State was ever affiliated with a legislature body more in league with the corrupt elements of society than is the Kentucky Senate."

The National Prohibition convention convened in Cincinnati yesterday. There are 1191 delegates.

Already the campaign lies has commenced. The first and biggest is that Adlai E. Stevenson gave his influence towards disrupting the Union during the late unpleasantness. Mr. Stevenson promptly nails his lie.

A BLACK PARTY.

The Negroes of Texas Making an Independent Political Organization—The Platform.

San Antonio, Tex., June 28.—Guadalupe county saw the birth of a new party which has no connection with the Democracy, Republicanism, Prohibition or any political organization heretofore existing. Indeed it is opposed to them all. Under a call issued by B Berry, a large number of negroes assembled in mass meeting and adopted a permanent organization, with Berry as Chairman, and adopted a platform which calls for negro nominations for every office within the gift of the American people, from President down to Constable. I recite that E B Franklin has lost two cows and other stock are known to have been bitten by the same dog. The worst it is feared has not developed yet.

A HORRIBLE DEATH.

Joe Hudson, an Employee of the DeKoven Mining Company, Found Dead.

DeKoven, June 21.—Was he killed by the cars or was he dead when the cars struck him? Old man Joe Hudson was either killed outright this morning by a train of loaded cars coming out of the O V Mining Co's slope or fell in a fit and died. No one knows just how he met his death. He was employed by the company to keep up fire in the furnaces. He was a very old man and subject to epileptic fits, as I have been told, this morning by two physicians who have attended him and his family for many years.

While ever merchant will tell you that provisions and fruit jars have advanced 12½ per cent. It is not advisable to buy from the leading grocer, Schwab as he bought early and before the advance, as he does always and he never fails to be in time to buy when the market is the lowest, and he is prepared to give you extra inducements to buy in order to make room. Having those large houses full and they must get empty. Call and see him and get prices.

The working of prisoners on the streets to pay their fines appears to be a failure. There is not work sufficient to keep them engaged, and it is rather expensive to hire a guard to keep one man at work.

Hon. Thomas S. Pettit, of Owensboro, Past Grand Master of the Grand Lodge of Kentucky, was on the programme for this oration, but his absence made the selection of another necessary, and in the selection of Capt. Allen, the committee made no mistake. He is an eloquent speaker, and handled the subject admirably; his utterances found a responsive chord in the heart of every hearer. After his speech, Rev. Mr. Yates concluded the oration he began in the forenoon. It was a great day for the fraternity, and the admirable management speaks well of the devotion and hospitality of the local lodge.

Saturday a gentleman from Caldwell county was in town with his little daughter, hunting a mad stone. The child had been bitten by a dog and it was feared that the dog had hydrophobia. Last week one or two dogs in this community were killed because of indications that they had the rabies. This is a good season of the year to kill dogs; about all they are useful for is to be killed, and our experience with the hydrophobia last year is certainly enough to convince the people that where the muzzles is not used, the shot gun should be.

—As science can not determine origin, so it can not determine destiny; as it provides no sectional view of everything in creation, it is not only a sectional view in time, but in scope and reach. Everything rises out of its domain, and disappears from its view in that larger world which is about it; a crystal and a man are equally inexplicable within its necessarily limited range of vision.—Rev. T. Munger, D. D.
